Membership & Support - Why..?

The challenge set by two members {MP & HR} was to give a reason why. It's an awful and awkward question. So your Management Team set about giving this very good reason. **Why you should bother.**

The headline is "RECLAIM THE DOMAIN. So here is the proof - and the history. Here is what we did with the dollars and support over the last year.

The words "Nude", "Naked" and "Naturist" dot com dot au were once owned by an Australian organisation. But one year the treasurer decided they could save about \$20 and not renew those domain names. They were immediately lost from the Naturist Community in Australia.

Your "Town and Country Naturist" club has started the process of reclaiming domain names. Better than that we have them registered until 2027. Try these in your browser.

by the time you get to read this we will also have

The BIG ask of you is:-

Be a member to June 30th for \$37 or visit the FUNDING TAB on our website and give privately there.

"Having difficulty..? Make a phone call:- 0452 46 23 26 We can sent an invoice or provide banking details."

Your sensible support will ensure we retain what we have and secure new ground in the future.

At this point I must commend Michael.B. - a pensioner member of this club. From his meagre resources he made a direct debit every three months of \$50 direct to the Town and Country Fundraising account.

Thanks to Michael for this level of support. He is part of the reason we have successfully made this DOMAIN NAME INITIATIVE.

So what will we do with YOUR money in the next few months. Our next initiative which will tastefully place the Naturist Lifestyle into the community. All givers will see the results first. **I reckon you will be pleased.**
